10. As an investor, during an economic downturn how would you react?

    • I would wait for things to start looking up and then invest **(1)** • I would quickly sell off my existing investment **(2)**
    • I would immediately invest or add more money to my investment **(3)** • I would hold all of my investment **(4)**

POINTS	5 - 15	16 - 25	26 - 35
PROFILE	**Conservative**	**Moderate**	**Aggressive**
Risk Category Details	Conservative investors are investors who want stability and are more concerned with protecting their current investments. A conservative investor is generally seeking to preserve capital and as a trade-off is usually prepared to accept lower investment returns.	Moderate investors are usually medium term investors who want to protect their capital and achieve some real increase in the value of their investments. This investor is seeking a diversified portfolio with exposure to a broad range of investment sectors.	Aggressive investors are long term investors who want high capital growth. Substantial year to year fluctuations in value are acceptable in exchange for a potentially high long term return. An aggressive investor is comfortable accepting high volatility in their capital value, with the risk of short to medium term periods of negative returns. They are willing to trade higher risk for greater long term returns and typically will have a long investment objective.
